

# Make Big Books with Adapted Scripture Passages

Once the Biblical text has been adapted it can be presented as a Big Book story for young children:

1. Count how many sentences the adapted version has. Gather that many sheets of A-3 paper.
2. Write one sentence on each sheet.
3. Add illustrations to each page. Following are some suggestions for illustrations:
  - Hand out individual pages to the children to illustrate;
  - Dress children as the characters and make frieze frames for each page. Take photos of the frieze frames and place on the relevant page;
  - Make each scene from various wooden figures and props and take photos that can be down-loaded onto each page;
  - Make simple puppets that children can use and take photos.
4. To make your Big Book durable laminate each page and add a cardboard cover with a title and illustration.
